

Reopening Policies

Dancers **only** will enter through the front door, have their temperature taken (no-touch), go straight to the studio, receive hand sanitizer, enter & take class, and be dismissed directly from the classroom to the front door. This creates one-way traffic flow through the building and limits the ability to wander around.

The bathrooms will be **closed** except for emergencies. Please ensure your dancer goes to the bathroom and washes his/her hands **before** coming to the studio. This is to make sure there is no cross-contamination.

In our classrooms, the floors will be marked out for each dancer allowing us to put physical distance between each dancer. The instructor will also have an area marked out giving them room to teach while also remaining 6 feet away from any dancer. There will be no use of props, no hand's on corrections, or any other former practices that promote contact between dancers/instructors. Instruction will be structured to maintain physical distancing throughout class.

There will be approximately 15 minutes between classes changes to allow for proper sanitization of the classroom floor, doors, etc. **BEFORE** a new group of dancers is welcomed into the classroom. Your class times may need to be adjusted.

Dancers will not be permitted to bring food or any extras into the building (including electronic devices). They must only bring needed dance shoes and a seal-able water bottle labeled with their name.

Masks will be highly encouraged but not required. Breathing becomes difficult for some in a mask, and we respect each families' decision to wear a mask. Teachers will also be asked to wear masks while teaching. This is something you may want to chat with your dancer about before opening, as we do not want anyone to be scared or worried by the sight of their teacher in a mask.

Upon the initial reopening, we will continue to provide a modified schedule of zoom classes for those who may not feel comfortable returning just yet. We will continue to run them as long as participation is strong, and it remains viable to do so.

As we navigate through these uncharted waters, we vow to do our absolute best for the safety, health, and happiness of both the students and the staff!!!
